PROFESSIONAL EXPERIENCE

Business Intelligence & Data Engineer

Sep 2017 – Present

Amazon | Bangalore, India

- Pioneered AI-agent-driven pipeline automation using Amazon's internal MCP servers — cut manual oversight 60%, MTTR 40%, and eliminated manual intervention for 80% of routine pipeline failures
- Led end-to-end data platform modernization for Ring IoT Battery Life Analytics, processing telemetry from 1M+ devices via PySpark/Airflow — cut Alpha/Beta trial analysis time by 70%
- Architected the Cross-Border Analysis framework across 5+ marketplaces, identifying \$2M+ in potential revenue recovery opportunities
- Built automated pipelines de-indexing 10,000+ permanently out-of-stock ASINs, improving search experience quality by 15%
- Partnered with Data Science to architect ETL for Benchmark Conversion Rate modeling — surfaced 500+ high-opportunity/risk keywords quarterly, driving a 20% improvement in Top 3 SERP rankings
- Built Crawl Analysis infrastructure across 15+ technical factors, improving crawl efficiency by 25%
- Developed the Keyword Ranking SOP Tool (R Shiny), used by 20+ SEO Managers, cutting analysis time from 4 hours to 15 minutes
- Automated Bad Debt and Weekly Business Review reporting (Redshift/Tableau), eliminating 100+ hours of manual work annually
- Mentored 2 business analysts and 1 BI Engineer on SQL, ETL, and self-service tool development, cutting escalations and ad-hoc requests by up to 50%

Healthcare Data Analyst

Sep 2016 – Sep 2017

SCIO Health Analytics | Chennai, India

- Led automation of Daily Input File QC for 10+ healthcare clients, cutting manual QC effort by 75% and data errors by 40%

Senior Analyst

Aug 2015 – Aug 2016

Maersk Global Service Center | Chennai, India

- Automated Daily Account Receivables reporting, cutting report generation time from 3 hours to 15 minutes across 15+ regions

Business Analyst

Oct 2012 – Aug 2015

Mu Sigma | Bangalore, India

- Led A/B testing and cohort analysis on a 2M+ user base for a professional networking platform, driving an 18% increase in premium subscription conversions
- Analyzed product cannibalization effects for a leading IT solutions provider, identifying 200+ ideal customer profiles for cross-sell/upsell campaigns

EDUCATION

Bachelor of Engineering, Electronics & Instrumentation Engineering — Madras Institute of Technology, 2008 – 2012
Anna University, Chennai
